SUMMARY AND OBJECTIVE

Seeking full-time employment in Cyber Security or Systems Administration that allows me to apply my knowledge and skills and grow professionally as an engineer.

EDUCATION

Iowa State University, Ames, IA Anticipated Graduation: May 2027

- B.S., Cyber Security Engineering GPA: 3.64
- President of the Iowa State Quiz Bowl Club

University of Limerick, Ireland Jan. - May 2025

- Spring semester Study Abroad opportunity

EXPERIENCE

Texas Dept. of Public Safety, Austin, TX – *Cybersecurity Intern* Jul. 2026 – Aug. 2026

- Worked with the Cyber Security team to improve the Department's security posture.
- Actively evaluated incident detection channels including CrowdStrike and Proofpoint.
- Designed a Splunk automation that uncovered dozens of overseas login attempts.
- Composed an agency-wide cyber security newsletter for a non-technical audience.

Heaping Plato, Ames, IA – *Student Worker* Aug. 2025 – Dec. 2025

- Served customers promptly and with a positive attitude.
- Ensured a safe and sanitary work environment by following food safety procedures.
- Balanced work activity with classes and other obligations.

Texas Parks and Wildlife, Austin, TX – *Cybersecurity Volunteer* Jun. 2025 - Jul. 2025

- Gained practical threat detection, incident response, and security operations experience.
- Used ServiceNow to manage customer tickets from initial intake to resolution.
- Monitored security events and alerts within EDR (CrowdStrike) and SIEM (Devo) platforms.

Taste of Ethiopia, Austin, TX - *Host* Feb. 2022 - Jul. 2023

- Ensured customers' needs were met in a fast-paced environment.
- Communicated information between the dining room and kitchen.
- Navigated language barriers / unexpected occurrences to solve problems.

CERTIFICATIONS

- CompTIA Security+ SY0-701 (Verification Code: 0CSW673Q7MR15ZE2)

SKILLS

- Diagnosis of and rapid response to security incidents using IDS and IPS.
- Unix command line and network tools, Microsoft Office, Google Drive and Suite.
- Familiarity with CrowdStrike, Proofpoint, and Splunk for cybersecurity.
- Familiarity with NIST cybersecurity standards, including NIST 800-53, and their implementation.
